## INSTRUCTIONS

**Purpose:** This form is being used to evaluate select 2018 Florida polling places for access by voters with disabilities, as part of an ongoing effort to assure Floridians barrier-free voting access.

**How to use this form:** After returning from the polling site, answer the following questions by marking either "YES", "NO", or "N/A" (not applicable), as appropriate, to provide feedback regarding accessibility components of your voting experience.

Polling places may be inaccessible for more than one reason. Please respond to every item on the survey, as appropriate. Accessibility concerns not addressed in a question may be noted in the comments sections; if additional space is needed to provide feedback, please feel free to attach additional paperwork or to write on the reverse side of this instrument. Thank you.
